PROJECTS

Backyard Jungle | [Repo](#) | [Deployed](#)

- Site allows users to create a profile, search any plant, add them to their collection, post plant tips, and comment on other users' posts.
- Group project that utilized Handlebars.js, JavaScript, Node.js, Express and MySQL2. I was responsible for backend components and routing.

Date Night | [Repo](#)

- Users click on a button to generate a random movie and dinner recipe for a date night at home.
- Group project that utilized CSS, Bulma, HTML, JavaScript and two different API's. I was responsible for backend components and routing.

Note Taker | [Repo](#) | [Deployed](#)

- Application that allows users to write, save, and delete notes in To-Do type style
- Individual assignment that uses Express.js back end that retrieves note data from a JSON file.

EXPERIENCE

ABA of Illinois, Bloomington, IL — Behavior Analyst(BCBA) (*lead therapist*)

June 2018 - August 2022

Developed behavior plans for individuals with developmental and intellectual disabilities, implemented and trained staff on strategies based on behavior plans.

Worked independently from other BCBA's in my company and was able to support staff and clients across several locations such as: at home, in the community, and in workshops. Served individuals with a wide array of disabilities and ages.

Project 12-Ways, Carbondale, IL — *Graduate Assistant*

Aug. 2016 - May 2018

Conducted behavioral assessments of conditions associated with child abuse and neglect and trained parents to correct or alleviate child abuse and neglect conditions via training of behavioral interventions.
